RE: ACT/019/016

Dear Ms. Linner:

Enclosed please find a letter to us from Taylor Livestock Corporation outlining to us their wishes concerning the above referenced property.

We feel that their requests are reasonable and we hope you will concur with us.

As you can see the seed mix has been amended to include the Yellow Sweet Clover and Russian Rye. I hope that this meets with your approval.

Sincerely yours,

Wilford W. Ruf

RE: Taylor Property

Gentlemen:

It is the desire of the Taylor Livestock Corporation that the property which you have under lease be reclaimed as follows:

1. ~~Remove~~ ^{Cover} the concrete pads.
2. Leave existing roads for easier access to the various areas of the property.
3. Leave the ponds associated with the Nancy System intact to serve as water collectors.
4. Fill in the ponds associated with the Cato Systems so the area can be reclaimed as pasture.
5. Leave the cleaned gravels as there may be a market for such in the near future.
6. Re-seed the disturbed areas with straight standard Crested Wheat, ^{yellow, sweet} ~~Grass~~. ^{lower Russian Wild}

Please convey these wishes to the state authorities and see that they are complied with.

Sincerely,

W L Taylor
